**Subject:** Final transfer of data call response back to WO... confirming steps

Ed & Anita-

Here is our plan:

Allison, Lola and Tyler to have UTSO-vetted drafts of the executive summaries and responses for BENM and GSENM completed by 12:30 (we'll send Word versions out.)

Cindy and Matt would like final opportunity to review GSENM files and upload attachments through 3 pm.

Who would you like to send WO 410 notice of data call completion at the end of the day? Is that something you would like Lola and I to handle or would you prefer the email to come from the SD office?

Regards,

Allison Ginn

Attached are the 12:30 drafts, which include input from UTSO (External Affairs, Resources and Minerals/Lands). I am just waiting on confirmation of two sources from the 5th floor. Ed and others- please let us know if you have any remaining concerns.

GSENM has an opportunity to continue adding data to Drive until 3 pm today. I am now just crosswalking our references with the files that are located in Drive.

Sally Butts and Tim Fisher reached out to say that they would start reviewing tomorrow and they will reach out to Tyler, Cindy and me for follow-up. I let them know that we are ~95% complete and expect to have all requested files uploaded by COB today.

Awesome effort, everyone!

Regards,

Re: Final transfer of data call response back to WO... confirming steps

Thanks Allison. I think you've laid out a good plan for final review and submission of the requested data. It may be that Anita is out of cell coverage on the field tour. You could have Joann send the back to Chris McAlear on behalf of the SD. She can copy Sally Butts, Peter Mali, Nikki Moore and Timothy Fisher. Also, I noticed that John Ruhs was copied on the incoming request so he should be CC'd as well.

I quickly reviewed the four documents. One minor thing I saw was on 3a of the BENM data it says RIMS instead of RMIS.

Thank all of you for your outstanding effort to pull this quick data call response together. Ed
